

# Sexy COUNTRY MISCHIEF

**This highly unusual book mixes tales of daring dogs and dedicated hunters with mischievous country sex.** Archie's foxes mingle with the unfathomable Fee and the luscious Lila witnesses the death of a deer. A badger bolts among the bluebells. The spilling of bull's blood blend with the sensual sway of shapely bottoms. Rabbits and foxes are nailed from a naughty nanny's bedroom. A sword-swallowing student doctor gets bitten on a badger dig but later demonstrates her abilities in an extraordinary way. A succession of gamecocks are beaten by a dunghill whose owner learns a valuable lesson and Fee floors Didriksen with a bombshell.
